

NO PALANTIR IN THE

PALANTIR MAKES AI-POWERED MILITARY AND SURVEILLANCE TECHNOLOGY USED TO COMMIT GENOCIDE IN PALESTINE - NOW IT WILL BE USED TO HANDLE NHS DATA

In November 2023, NHS England awarded a £330 million contract to US spy-tech firm Palantir to create the Federated Data Platform. This will be used to handle all data that goes through the NHS.

In June 2025, the British Medical Association passed a resolution stating that Palantir "is an unacceptable choice of partner to create a Federated Data Platform for the NHS" - as health workers and patients, we can resist the rollout of this technology.

PALANTIR ARE ARMING GENOCIDE

In January 2024, Palantir signed a new deal with the Israeli Occupation Forces (IOF) to supply advanced AI weaponry technology for use in the genocide in Gaza, and for years have provided technology to support the occupation and apartheid. Francesca Albanese, UN Special Rapporteur on the Occupied Palestinian Territories, reported that Palantir has provided "automatic predictive policing technologies" as well as the core infrastructure used for the construction and deployment of military software.

Palantir's CEO Alex Karp says he is "exceedingly proud" of Palantir's involvement with what he calls "operationally crucial operations in Israel". NHS England has now handed over our public money to a company that is directly complicit in the Israeli apartheid, occupation and genocide of Palestinians.

NHS England has now handed over our public money to a company that is directly complicit in the Israeli apartheid, occupation and genocide of Palestinians.

HEALTH WORKERS FOR A
FREE PALESTINE

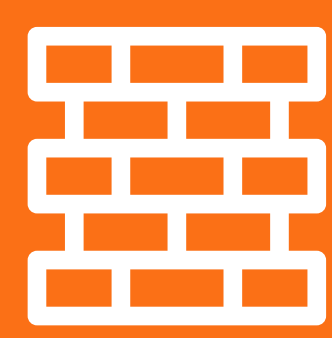

HUMAN RIGHTS ABUSES

POLICE: Palantir supplies Israel and the US police with racist "predictive policing" tech used to harass & detain Palestinians and target Black communities in the US

SURVEILLANCE: Palantir work with UK & US digital spy agencies, the UK Police, and US Government to support mass surveillance programmes

BORDERS: Palantir helped ICE, to track, detain & deport refugees at the Mexican border, and are now running the logistics and tracking for mass deportation programmes ICE are performing in the US

DRONES: Palantir supported the US military devastating drone operations in Iraq & Afghanistan and work with the US Pentagon to develop AI drone technology

THIS CONTRACT FURTHERS NHS PRIVATISATION

NHSE could have used in-house skills to build a similar platform using open-source software. Instead they chose a company whose owner, Peter Thiel, said that "the NHS makes people sick" and that it should be privatised. He also said that British attachment to the NHS was a form of "Stockholm Syndrome".

During the testing phase of the FDP, many trusts stopped using the software, due to the low-quality tech. Leeds Teaching Hospitals NHS Trust stated that adopting the tech meant they would "lose functionality rather than gain it"

PALANTIR IS A THREAT TO OUR HEALTH DATA SECURITY

NHSE have handed our data to a company that has used population data for human rights violations in the US. The contract expands capacity for state surveillance of our health data, especially for migrant patients who the Home Office targets. Palantir are already playing a dangerous role in data collection in the UK. Palantir have partnered with East of England Police to create "a real-time data sharing network" that includes personal data of vulnerable witnesses, and processes details such as trade union membership, sexual orientation and race. Amnesty UK stated that Palantir would benefit greatly from being able to train their AI algorithms on our health data.

We need pressure from the inside and outside to get this contract cancelled and disrupt the rollout.

We all have a part to play - Join us!

WHAT CAN I DO NOW?

- Get involved in the campaign at the national level and at your local hospital
- Use our trust tracker to find out if your hospital is rolling out Palantir tech
- If you're a doctor, speak to your local BMA representatives and organise your colleagues to pressure your hospital to refuse the FDP and build power amongst workers
- Use our template union motion in your local branch
- Organise your community to demand your local hospital refuse to implement the FDP
- Email your local trust to express your concern and make a complaint about the FDP
