

NO PALANTIR IN THE

NHS ENGLAND WORKERS: *HELP US CANCEL THE PALANTIR FDP CONTRACT*

In November 2023, NHS England awarded a £330 million contract to US spy-tech firm Palantir to create the Federated Data Platform (FDP).

Palantir specialise in AI-powered military and surveillance technology and data analytics. The company describes its military technologies as offering customers *“mission-tested capabilities, forged in the field”*.

PALANTIR ARE ARMING GENOCIDE

In January 2024, Palantir signed a new with the **Israeli Occupation Forces (IOF)** to supply technology to **support the genocide in Gaza**. Palantir's CEO Alex Karp says he is **“exceedingly proud”** of Palantir's involvement in what he calls **“operationally crucial operations in Israel.”**

According to Francesca Albanese, UN Special Rapporteur on the Occupied Palestinian Territories, Palantir has provided Israel with "automatic **predictive policing technologies**" as well as the core infrastructure used for the construction and deployment of military software

NHS PRIVATISATION AND OUTSOURCING - The Palantir contract is a choice to increase privatisation, outsourcing and vendor-lock in. NHS England has handed them our health data and public money, after years of lobbying and corruption. But it is NOT mandatory for hospitals to implement the technology - they can refuse. During the pilot phase, an NHS Trust stated that adopting the tech meant they would "lose functionality rather than gain it"

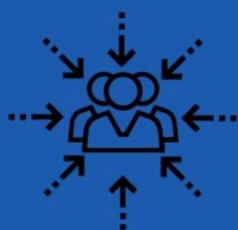

DATA PRIVACY - The contract expands capacity for surveillance in our health services. Palantir has worked with the ICE to create databases to track and deport migrants and asylum seekers, and police forces to create databases of 'suspected criminals' including mass gathering data on union membership, sexual orientation and race.

We need pressure from the inside and outside to get this contract cancelled. If you are a worker horrified by this contract or a patient who wants your local hospital to refuse - koin us!

OUR DEMANDS:

Cancel the Palantir NHS contract

Bring all public service data management in house

End the privatisation, asset-stripping and outsourcing of public services to corporations

No public service deals with companies complicit in the Israeli occupation
