

NO PALANTIR IN THE

NHS

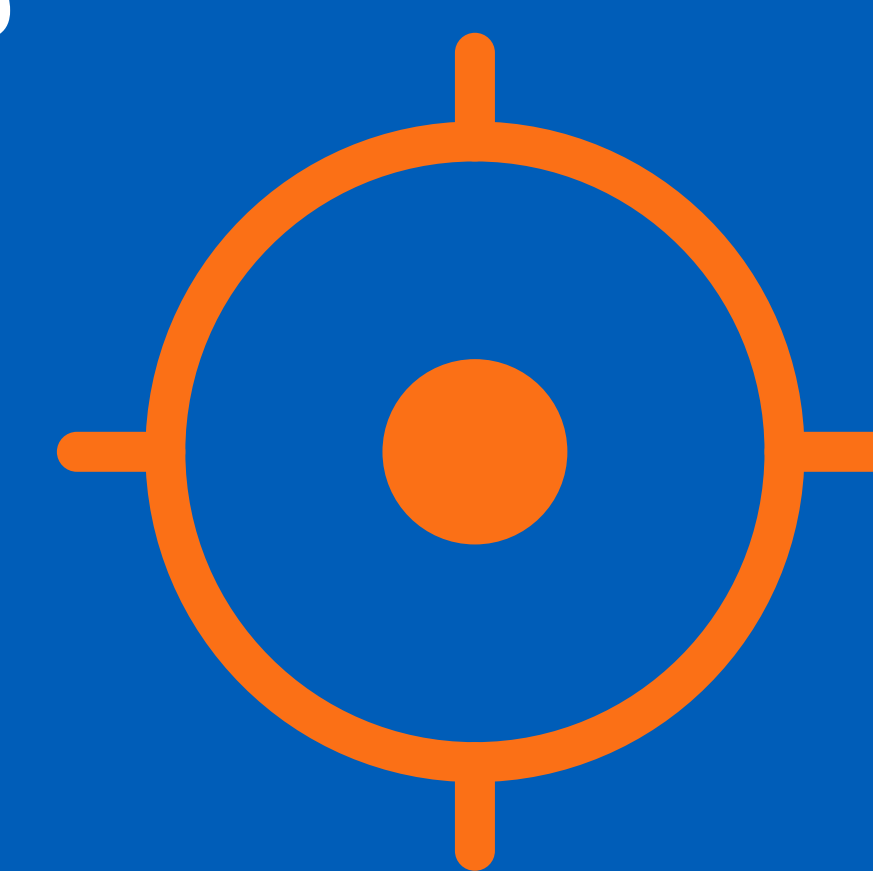

PALANTIR MAKES AI-POWERED MILITARY AND SURVEILLANCE TECHNOLOGY USED TO COMMIT GENOCIDE IN PALESTINE - NOW IT WILL BE USED TO HANDLE NHS DATA

In November 2023, NHS England awarded a **£330 million contract** to US spy-tech firm Palantir to create the Federated Data Platform.

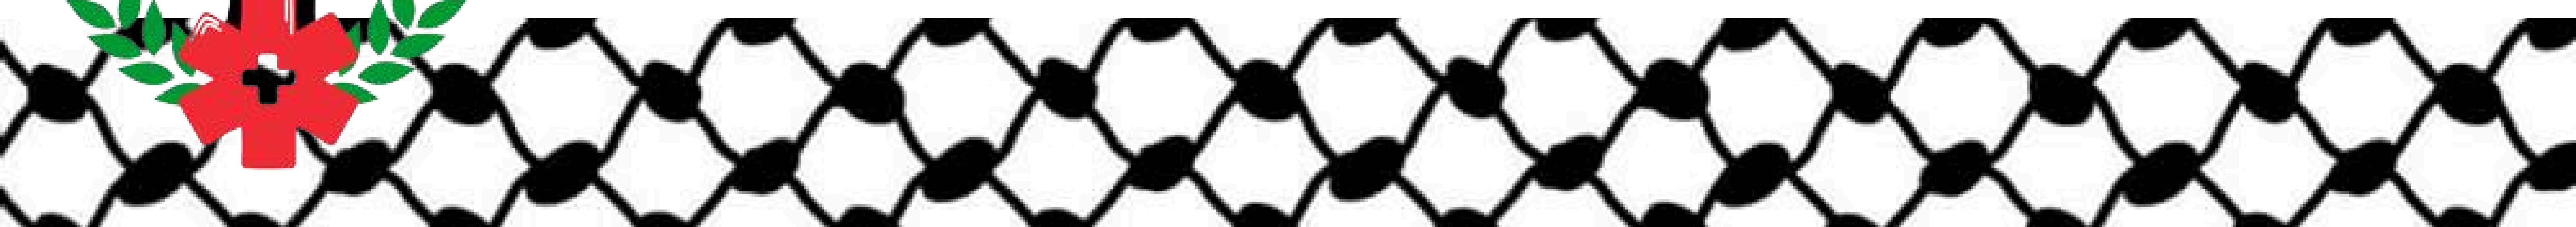

In June 2025, the British Medical Association passed a resolution stating that Palantir "is **an unacceptable choice of partner to create a Federated Data Platform** for the NHS".

PALANTIR ARE ARMING GENOCIDE

Palantir supplies technology to the Israeli Occupation Forces (IOF) to support the occupation, apartheid and genocide of Palestinians.

According to Francesca Albanese, UN Special Rapporteur on the Occupied Palestinian Territories, Palantir has provided "**automatic predictive policing technologies**" as well as the core infrastructure used for the construction and deployment of military software.

NHS PRIVATISATION

NHSE gave this contract to a US company that has produced **low-quality technology** - **one NHS Trust** stated that adopting the tech meant they would "**lose functionality rather than gain it**". Meanwhile, Palantir gets millions of pounds and trains their AI models on our data.

DATA SECURITY

Palantir has worked with the ICE to create databases to **track and deport migrants and asylum seekers**. They helped to identify student protestors. Their police surveillance work includes gathering **personal data including sexual orientation, union membership and race**.

We need pressure from the inside and outside to get this contract cancelled. We all have a part to play - Join us!
